

FormuMax
Scientific, Inc.

Dear Colleagues,

I am delighted to take this opportunity to introduce you an emerging drug delivery company, FormuMax Scientific, established at the heart of Silicon Valley. The core technical team of FormuMax is a group of scientists formerly from the liposome division of ALZA Corporation. Our business concept is simple and that is to become the partner of choice of pharmaceutical and biotech companies by being a leader in parenteral drug delivery, in particular, in formulating challenging compounds using novel nano-enabled delivery technologies. The expertise of the team is the best in the field and our greatest asset is the extensive experience gained in the past 15-20 years at ALZA and other companies. The long-term goal of the company is to grow the business to a leading organization with full capabilities from formulation development, scale-up manufacturing through IND submission and eventually to providing GMP clinical trial supplies. Of course such an ambitious goal cannot be achieved without your support. So let me thank you for stopping by and for your future support.

Sincerely,

Yuanpeng Zhang (YP), Ph.D.
President and CEO
FormuMax Scientific, Inc.

Products and Services

FormuMax offers services and products that are tailored to meet the need of our partners/customers for quality, flexibility and timeliness

Formulation Development

- ◆ Project scope varies from feasibility, prototype development, to scale-up and process optimization.
- ◆ New technology development or using existing systems
- ◆ Characterization, stability, in vitro/in vivo studies

Q-Test

- ◆ Quick formulation screening (2-4weeks) using pre-defined system
- ◆ Supporting drug discovery and preliminary formulation evaluation

Catalogued Reagent Products

- ◆ Custom-made preformed liposomes
- ◆ Empty liposomes with drug loading batteries
- ◆ Liposomes with drug loaded
- ◆ Cationic liposomes ready to use
- ◆ Liposomes with special functionality

FormuMax Scientific, Inc.

20660 Stevens Creek Blvd., Suite 327
Cupertino, CA 95014, United States
Phone: (408) 607-5788
E-mail: service@formumaxscientific.com

Technology

We specialize in a range of formulation technologies that are designed to deal with challenging compounds and can be tailored and optimized to fit the specific needs of our partners.

Our Expertise

- ◆ New nanoparticle carrier and drug loading technology development
- ◆ Conventional liposomes/long-circulating liposomes
- ◆ Lipid-based nanoparticles
- ◆ Other types of nano-enabled systems

Benefits with Our Technology

- ◆ Accumulation enhancement at the disease site through prolonged circulation
- ◆ Improve PK/PD relationship
- ◆ Increase in therapeutic efficacy
- ◆ Reduction in dosing frequency
- ◆ Solubilization of water-insoluble compounds
- ◆ Reduction in toxicity
