

FormuMax Products: Preformed Liposomes

- High quality and concentrated preformed liposomes ready to use to save time, cost and increase productivity.
- Prepared from the highest quality lipids only from premier suppliers.
- Prepared to the highest quality by experienced formulators using well established methodologies.
- Sterile filtered to ensure long-term stability.
- Guaranteed batch-to-batch consistency and reproducibility.
- We provide custom-made liposomes to your specifications.

Empty placebo liposomes

Prepared by the extrusion method, hydration buffer: 20mM HEPES, 10% sucrose, pH 7.0, external buffer solution the same as internal,
 Contain 5-10% ethanol which can be removed by dialysis if necessary
